Christopher ARZUR

Senior PHP Developer Contractor
Zend Certified Engineer

After a dozen of years working as a PHP developer in France, I decided to move to London for greater personal and professional opportunities. Skilled in web development technologies, especially backend, I like to challenge myself, learn and share experiences. It is with this state of mind that I am looking for a contract opportunity today.

Work

PHP Developer (contract), London 2016 / 2017
PHP Developer in remote contract for **www.hotel.lacomdescom.com**, an hotel booking platform aggregating offers from multiple online travel agencies (OTAs) and offering cashback on the bookings. I integrated OTAs via **SOAP** and **REST** APIs, implemented **online payment** and set up the search platform with **Apache Solr**.

Technical Manager @ Cognix Systems, Rennes (FR) 2010 / 2016
Having started as a **PHP developer**, I was offered the position of Technical Manager, essentially another term for Lead Developer, also consisting in hiring and managing a team of 10 developers. I worked on many projects, all based on **Zend Framework**. Most references are available on **www.cognix-systems.com**

Software Developer Engineer @ CGI, Rennes (FR) 2006 / 2010
Hired at the end of my work placement, I mainly worked on extranet web applications for **Orange Business Services**. Some of my missions were related to **JAVA** and **VB.NET** but **LAMP** stack was my main environment.
